ABOUT Us

Control Catalog is a well-established industry leading seller of new and rebuilt electrical equipment. We pride ourselves on carrying a large stock of new items, custom-made, remanufactured, obsolete, and hard to find items. We are an continually evolving company to ensure that we can provide the products you need. Our company also provides custom rentals, fabrications, and in house repairs. We listen to our customers wants and needs, and try to find solutions.

Need something custom made for your project?

Why replace entire setups of older equipment because of one blown out part?
We could have a solution that will reduce your lost production time and cost.

Need Help?

With a few questions we can determine what would be best for your project and budget.

Contact Us Today!

Turnaround

We understand that you need equipment now not in a few months. We thrive on our ability to have faster turnarounds then our competitors. We have our own trained UL 508A shop that builds the equipment in house and can usually ship same day the equipment is finished.

Our Products

We specialize in circuit breakers, contactors, disconnects, distribution panels, enclosures, explosion proof, mcc buckets, motor starters, relays, soft starts, transfer switches, VFD's, inverters, accessories and more! We carry major brands like ABB, GE, Cutler Hammer, Square D, Seimens, and more for your convenience. We are also a distributor for Abb, Killark, Adalet Explosion Proof enclosures, Eurobex enclosures, Saginaw enclosures, Hawke Cable Glands, and more. Whatever your need is, chances are that we have it or can get it.

Warranty

All of our custom products are protected with our one year warranty. We provide full technical support on normal operations of our custom made products and any repairs on our products that have occurred because of malfunction. Improper handling and/or installation of the product may void your warranty and become a hazard risk. Please use safety precautions and only allow professionals to handle and install equipment. Additional technical support and/or repairs may be subject to a fee after the one year warranty ends or deemed void.

Return Policy

Our return policy states that the purchaser has five (5) days to notify us of defective material or returns. Returns may be subject to a restocking fee depending upon the situation and/or physical shape of product and/or its original packaging.

Contact us today at 1.888.463.2759 for more information.
